Topper's Interview

Interview of class XI topper (Commerce-90.7%) SUDHA, by Ms. MansiHathi (TGT English).

Teacher: Heartiest congratulations!!! for your success and all the best for your future endeavors.

Student: Thank you ma'am.

Teacher: How do you feel at this juncture?

Student: I really feel good. When I scored good marks in class X, I was advised to opt science. But I always wanted to opt commerce because, I have a keen interest in knowing the various trends of Indian economy and strategies of business. So, it makes me proud as I could do well in the field of my choice.

Teacher: To whom would you like to give the credit of your success?

Student: The credit goes to all my teachers who supported, motivated and helped me incredibly in my studies and to my parents as well who always showed confidence in me.

Teacher: What strategies did you follow?

Student: I have been regular with studies and always gave equal time to all the subjects. Whenever I faced doubts, I resolved them immediately. A thorough and regular practice awarded me a good result.

Teacher: What are your future plans and ambitions?

Student: I love maths and want to become a mathematician.

Teacher: Would you like to give some suggestions to other students?

Student: My only advice to them is studies should not be considered a burden and rote learning should be avoided. Concepts should be made clear and studies should always be enjoyed.
