## FROM THE HOUSE MASTER'S DESK

Dear Students,

**Soar high, even the sky is not a limit.**

It is not the strength of the wings, but the desire to be up there that makes the fight possible. There is no dearth of opportunities for the one who wants to make a difference, we only need to grab the right one and work towards it.

Dear students, as you graduate to the next level and are into the new academic session, it is time to get ready for bigger challenges. Although the transition from one level to another will be smooth, there will still be a need to let your creativity flow and generate better ideas for newer heights. So yes, now is the time to sit down and chalk out the road map. The first step towards it is by defining your goal. Once you decide it will be essential that you revisit the previous experiences to make the right choices. Consider all possibilities and methods for reframing problems that you might encounter. Don't be overconfident; we need to continuously enhance our skill sets to achieve our potential. As you embark upon your new journey, just remember that you are your own competition.

Warm Regards!
